This course is based on NFPA 472, "Standard for Professional Competence of Responders to Hazardous Materials Incidents". Successful completion of this course and may lead to IFSAC and ProBoard certifications. This course is for emergency response personnel who may be first on the scene of a hazardous materials emergency. First responders at the awareness level are expected to recognize the presence of hazardous materials, protect themselves, secure the area and call for trained personnel. At the operational level, the first responder uses the knowledge gained from the awareness level to act in a defensive posture to protect people, the environment, or property from the effects of an unplanned hazardous materials release.

This class will qualify students to sit for either Proboard or IFSAC certification for First Responder Operations. Class fully customizable to meet the needs of the department. This class meet and exceeds NFPA 472/1072 requirements.
